

Preclass 1/3/12

Name: [REDACTED]

1. What gets you motivated about doing well in school and why?

College is what gets me motivated about doing well in school. This is because the better I do, the better the college I will be able to get into, and the better the college the better career I will have when I grow up to be able to support my wife and kids and buy season tickets to the Phillies  while driving a Bugatti.

2. What is your favorite class this year and why?

This is my favorite class because it is very interactive. A lot of debates. A lot of activities. A lot of group work. A lot of expressing your ideas and opinions. Also this class is a challenge so it pushes me to work, considering my other two classes are simple to help me get ready for college. Also both teachers of this class are excellent: Mr. Frank is experienced smart, and seems to know how to teach a class well. And "STECHIE" is funny, wears pink pants, and "seems" like a cool dude other than that he's a Boston fan.
